

Diane Lewis Scholarship Award

Diane Lewis was one of the greatest women in the world. While raising 11 children she obtained a bachelor's degree in education from Purdue (Calumet) University in 1996. After graduating from college, she went on to teach for the Gary Community School from 1997 to 2010. This great woman of God has taught many children young and old how to prosper in the field of education. Today we honor her great legacy by awarding scholarships to high school students in Northwest Indiana.

Breast cancer is cancer that forms in the cells of the breasts. Breast cancer can occur in both men and women, but it's far more common in women. After skin cancer, breast cancer is the most common cancer diagnosed in women in the United States. But breast cancer rates have fallen in recent years, though doctors aren't certain why. Still, for many women, breast cancer is the disease they fear most. It's not clear what causes breast cancer but, doctors know that breast cancer occurs when some breast cells begin growing abnormally. These cells divide more rapidly than healthy cells do. The accumulating cells form a tumor that may spread (metastasize) through your breast, to your lymph nodes or to other parts of your body.

Since 2014 the Diane Lewis scholarship award one (1) \$500 scholarship to a high school senior in the Lake County area. This coming year (2019) we will be awarding two (2) \$500.00 scholarship to seniors in Northwest Indiana majoring in the field of education.

Thank you
